

Maze link:

<https://t.maze.co/469523307>

The screenshot displays the Maze application interface in a web browser. The browser's address bar shows the URL <https://app.maze.co/projects/469523306/mazes/469523307/results/share>. The application's navigation bar at the top includes the Maze logo, a back arrow, the title 'New maze 1', and a sequence of tabs: 'Build', 'Share' (which is highlighted in blue), 'Results', and 'Report'. On the left side, there is a vertical sidebar with icons for home, a grid, a document, a magnifying glass, a clock, and a list of settings.

The main content area is divided into two sections. The top section, titled 'Share your maze with testers', contains several interactive options: 'Desktop and Tablet' (selected), 'Clips not enabled', 'Study requirements', and 'Stop study'. Below these are four cards: 'Copy maze link' (with a subtext 'Invite testers via your own channels'), 'Hire panel participants' (with a subtext 'Get insights in hours from a verified global pool'), 'In-Product Prompt' (with a subtext 'Embed as a popover on your live website'), and 'Send Reach Campaign' (with a subtext 'Email to a Segment of your own testers'). The 'Send Reach Campaign' card is marked as 'UNAVAILABLE ON TRIAL'.

The bottom section, titled 'Performance', features a table with the following data:

NAME	SENT	STARTED	COMPLETED
URL Link • Live • Created: a minute ago	—	1	1 (100%)

The Windows taskbar at the bottom of the screen shows the system clock at 12:51 PM on 16/11/2025, along with weather information (27°C, Partly sunny) and various application icons.
